

UK based freight forwarder, OceanBlue Logistics Limited are reaping the benefits of attending **The Freight Summit 2010** held in Macau, China in September.

Although the event was just a few weeks ago they have already secured new business with agents in China, Italy, Canada as well as having interesting enquiries from Brazil, Argentina, Jordan, Philippines and Hong Kong.

Director, Rob Salt, who attended the event said, "We found the one-to-one meetings very useful and constructive and I met with global agents to discuss possible partnerships, this also carried on to the pre arranged night proceedings. We wanted the event to attract both new customers and find potential agents. The whole event acted exactly how we had hoped for."

The event was held at The Venetian Hotel in Macau, a former colony of Portugal, an oasis off mainland China.
